2948mm x 5946mm - See below

GLOBAL WILL REFUSE TO ACCEPT ANY DELIVERIES THAT DO NOT CONFORM TO THESE SPECIFICATIONS

DELIVERY DEADLINE AND POSTING CYCLE

Posters must be produced to the exact specification set out below and delivered 14 calendar days before the 'In-charge' date of the campaign. Campaigns are then posted on a 9 calendar day cycle (excluding Bank Holidays) which commences before the 'In-charge' date.

Please note: Global is not liable for compensation claims against any campaign where posters have been received after the delivery deadline. All posters received after the delivery deadline will not be posted until the next available posting cycle for this site type.

COPY APPROVAL

Before posting can commence, every National Rail campaign must be submitted to Global for copy approval. This is to ensure that the Codes of Practice outlined by our franchise partners are being upheld. See *Copy Approval* on page 4.

DISPLAY AREA

Due to paper-stretch when wet-posting, Global strongly suggests that advertisers pay particular attention to the Display Area. Background images and colours can be bled up to the Overall Size but all important text and images must be positioned no less than 150mm from the right-hand edge and 100mm from the bottom edge. This will ensure that no important text or images are lost behind the framework of the hoarding.

Please note: **Global strongly recommends that you do not use the frame as a 'cropping device' for corporate logos and borders as 100% accuracy cannot be guaranteed.**

MATERIALS

Posters or slips will not be accepted if printed on any photographic or vinyl materials. Global will also refuse to accept any posters that have been varnished, laminated or encapsulated as none of these processes are compatible with wet-posting.

SCREEN PRINTING: 105-120gsm Opacified UNCOATED MG poster paper with a blue backing.

LITHO PRINTING: 105-120gsm Opacified COATED MG poster paper with a blue backing.

INKS

All 48 Sheets are wet-posted therefore only solvent inks can be used as UV or water-based inks are not compatible for wet-posting.

PRINTING

Variations in the compatibility of ink, paper and drying method can cause a reduction in the paper's durability and may cause the paper to tear during posting. Therefore each ink, paper and drying combination should be thoroughly tested for suitability before commencing with poster production. Please contact the Global Safety, Quality & Environment department on 020 7482 3000 for assistance with posting trials. Global will not accept responsibility for posting failures that may occur due to ink, paper or drying incompatibilities.

Global will not accept posters that are printed in a landscape format.

SPARE POSTERS

Global will always require additional 'spare' posters to refurbish campaigns.

For a campaign of fewer than 20 sites, contact Global on 028 9032 2333 for the quantity of posters to be produced.

For a campaign of up to 4 weeks, initial deliveries should include 10% spares.

If the campaign is longer than 4 weeks, sufficient spares should be provided to re-post the campaign every 4 weeks.

TRIMMING AND FINISHING

Posters must be trimmed to the Overall Size within the stated tolerances: Width = 6076mm to 6096mm. Depth = 3028mm to 3048mm.

All 12 sections must be printed on individual sheets, measuring 1524mm deep x 1016mm wide with additional UNPRINTED overlaps suitable for posting left-to-right and top-to-bottom. See below for more details.

OVERLAPS - Please refer to the line drawing at the beginning of this specification.

Panels 1, 2, 5, 6 and 9 will require a 10mm UNPRINTED overlap on the right-hand edge.

Panel 10 will not require any overlaps.

Panels 3, 4, 7, 8 and 11 will require a 10mm UNPRINTED overlap on the right-hand edge and the top edge.

Panel 12 will require a 10mm UNPRINTED overlap on the top edge.
